TAILOR MADE SAFARIS

Few destinations in Africa can rival Tanzania's diversity of wildlife, rich culture and vast landscapes. For many it is the ultimate safari destination, which is not surprising for a country that has more land devoted to National Parks than any other wildlife destination. Tanzania boasts the famous Serengeti, the setting of the Wildebeest migration and the Ngorongoro Crater which is a vast volcanic caldera commonly referred to as Africa's Garden of Eden. Tanzania is also home to Mt. Kilimanjaro, the world's tallest free-standing mountain. With so many different places to visit and explore, it is no wonder picking a set itinerary can be difficult.

A favourite East African holiday destination, Tanzania offers a range of safaris for both first-timers and the seasoned adventurer. The ease with which a child-friendly safari can be combined with a beach holiday in Zanzibar makes Tanzania an easy choice for families. Tanzania has something for everyone and something for everyone's budget, let us help you plan your perfect safari.

All Around Tanzania Safaris Ltd staff have a wealth of knowledge to share. Our guides have over 20 years' experience running the safari circuit of Tanzania. In fact, the interaction with your guide and the local people will be one of the highlights of your trip. Our booking team will listen to your personal requests and help customise an itinerary to include all of your priorities.

My safari with All Around Tanzania Safaris was without a doubt one of the most amazing experiences of my life. The booking and communication leading up to our safari was second to none. All our queries and requests were met with enthusiasm, and nothing was too much trouble for the team at AATz! We visited Lake Manyara, where we had our first 'pinch yourself' moment with the awe inspiring site of a magnificent elephant that came wondering out from behind some trees and walked along the road before deciding to disappear as quietly as he came back into the bush. We camped in the Serengeti National Park where we fell asleep to the surreal sounds of Lions in the distance singing us a lullaby. Of course, this is but a snippet of what we encountered and is one experience I think everybody should enjoy at least once in their life!

SO... WHY SAFARI IN TANZANIA?

Tanzania has been voted as East Africa's #1 destination for many reasons. It is home to some of Africa's best attractions including Mt Kilimanjaro, Serengeti, Ngorongoro Crater, Tarangire National Park and Lake Manyara just to name a few.

Tanzania is the only country in the world which has allocated almost a third of its total area to wildlife National Parks and protected areas.

The Serengeti National Park's ecosystem is the oldest on the planet. It boasts a diversity of flora and fauna that is unseen anywhere else on the globe.

Tanzania contains some 20% of the species of Africa's large mammal population, and the bird life is amazing.

Tanzania and the Serengeti are famous for its extensive migratory herds of Wildebeest and Zebra, whilst also having the reputation as one of the great natural wonders of the world.

Your road trip has no boundaries. Go where the animals go: go freely. Tanzania Parks are unfenced, the roads are dirt. It is raw. Wild. Untamed.

Tanzania is a land of unique beauty. From the snow-capped peaks of Mt Kilimanjaro, the endless plains of the Serengeti, to the white sands of Zanzibar - Tanzania has so much to offer.

WHERE DO WE GO?

Tanzania is a land of unique nature and beauty. From the snow-capped peak of Mt. Kilimanjaro, to the plains of the Serengeti, witnessing the Great Migration and learning about the history and culture of the local tribes, Tanzania truly is a phenomenal place to see it all! It is the premium destination to experience a safari in Africa and we believe that we have built all of our safaris to enable us to showcase the best wildlife and cultural spots that Tanzania has to offer. All of our itineraries are based on local knowledge and 20 years game drive experience

▶ OLDUPAI GORGE

One of the most important paleo-anthropological sites in the world, showing evidence of inhabitation by early humans nearly 2 million years ago. You can see early stone tools and fossil remains and learn how this archaeological site impacts our understanding of human evolution. Located halfway between the Serengeti and the Ngorongoro Crater and is a 'must see' destination whilst on Safari.

▶ ARUSHA NATIONAL PARK

Home to Mount Meru and on a clear day you can see the snowcapped peaks of Mount Kilimanjaro. Located just a short drive from Arusha it is very accessible and perfect for a day trip. Arusha National Park has the perfect mix of flora and fauna within diversified landscapes. During a game drive you will likely spot peaceful herds of buffaloes, shy bushbucks, warthogs and zebras. This Park is a great place to see the athletic black and white Colobus Monkeys

▶ LAKE MANYARA

A smaller, but very pretty, national park, full of life. Said to be the, "loveliest Lake in Africa," by Ernest Hemingway, Lake Manyara is well worth a visit. Lake Manyara is especially famous for its tree climbing lions, concentrated herds of elephants and the flamingos that flock to the slightly salty Lake. Giant fig trees and mahogany make up the thick forest, full of bustling activity. It is a birders paradise with over 300 species. The Lake makes a spectacular backdrop for photographers and the water supply means wildlife is abundant

▶ TARANGIRE NATIONAL PARK

Just south of Lake Manyara, is one of our favourites. Most famous for its large herds of elephants it also hosts a remarkable concentration of big cats. It is named after the Tarangire River that flows year-round and therefore provides a constant water supply, attracting the mammals, especially during the dry season. The Silale swamp attracts some of the best bird diversity in Africa, over 550 species. Ancient baobab trees dot the grassland plains. The vegetation includes bushlands, woodlands, rocky hilltops, deep gullies, and wetlands. No wonder it is a photographer's dream and no wonder such a diversity of wildlife make this Park their home.

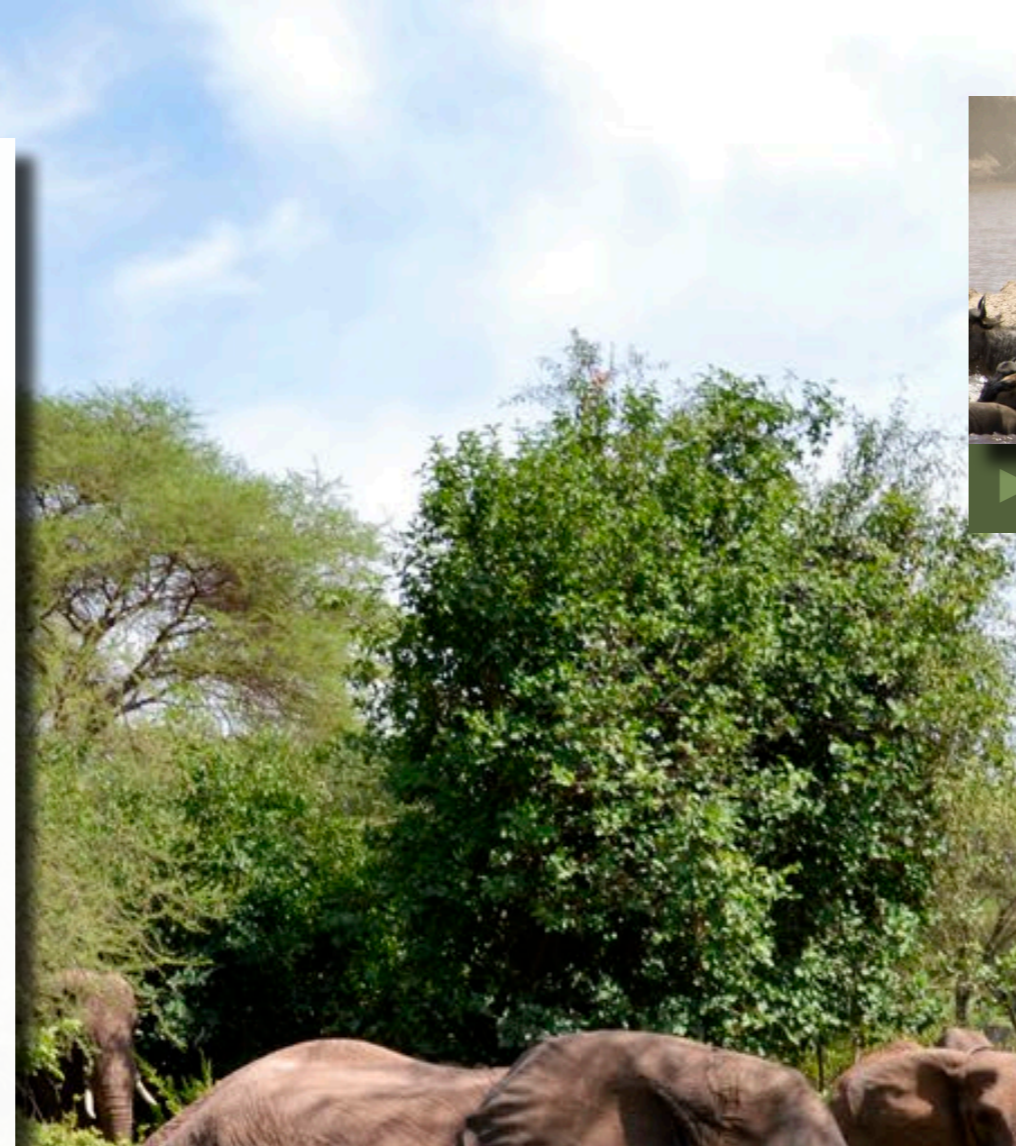

LAKE EYASI

Sheltered by the Great Rift Valley, is a shallow, salty lake. The undeniable beauty of Lake Eyasi relies not only on the landscape but in the fact it is home to the Hadzabe Tribe, the last known hunter gatherer tribe in Tanzania. Genetics suggest that this tribe is possibly more than 100,000 years old, with approximately 1300 remaining members. They keep no livestock so survive by hunting with handmade bows and arrows and gathering edible plants and honey. One of the most curious characteristics of this Tribe is their language, the Hadzane, which consists of an exotic symphony of tongue clicks and glottic pops. The Datoga tribe also live in this vicinity, proud, fierce, warriors and pastoralists. A visit to Lake Eyasi is a cultural delight!

SERENGETI NATIONAL PARK

The most famous park in East Africa and certainly the jewel in Tanzania's crown, covering 12,950 sq km and located between Lake Victoria, Lake Eyasi and the Great Rift Valley. With more than 2 million Wildebeest and 250,000 Zebra the area is home to the greatest concentration of game in Africa, supporting more than 30 species of large herbivores and 500 species of birds. The Great Migration is a sight to behold as the herds continually move to seek new pastures. The breeding and calving grounds in the southern plains are occupied from December to February but must be left to find food, travelling north, culminating in river crossings from July- September each year, although the precise timing depends on the annual rainfall. Serengeti means endless plains and that is what you will experience. Classic savannah dotted with acacias and filled with wildlife. The ecosystem of the Serengeti is one of the oldest on Earth and the circle of life or the patterns of life and death are as old as the hills themselves. Try your luck at spotting the Big 5, Lions, Leopards, Elephants, Buffalo and Rhinoceros. The Serengeti has inspired many Writers and touches the hearts of all who visit.

KARATU

A town full of colour and vibrancy, located along the Northern Safari circuit, serving as a gateway to the Ngorongoro conservation area. Its nickname is the Safari Junction. Downtown is a mix of old and new as safari vehicles, local buses and brightly coloured boda bodas ride alongside Maasai herders and Ox carts. On the outskirts of town, you will find cultivated farms and villages that merge into the vegetation of the Ngorongoro Forest. Karatu is usually used as a stopover on Safari or as a base for day trips. Whilst here you may wish to take a town tour, visit the marketplaces, drink the local coffee whilst stopping in at a coffee plantation, or perhaps try the local beer at a Brewery! A walk to the see the Elephant Caves and the tumbling waterfalls is a must and if you take a Guide you can learn about the medicinal plants along the way. A great location to rest and recharge for your next safari leg.

NGORONGORO CRATER

Once a giant volcano, is the largest intact volcanic caldera in the world. Some say that before it erupted, it would have been higher than Mt Kilimanjaro, the highest peak in Africa today. Nearly 3 million years old, the ancient caldera shelters one of the most beautiful wildlife havens on earth. One of the best places to spot the elusive black rhino and the Big 5! A UNESCO world heritage site, it truly is a wonder of the natural world. Breathtaking views from the rim, and as you descend to the crater floor, are hard to describe, other than stunning. The circle of life is epitomised here, and the Crater is commonly referred to as a Garden of Eden due to it being a paradise for animals.

WHAT TO PACK

We will send you a packing list prior to departure dependent on your itinerary. Campers will need a sleeping bag and pillow, although we can arrange hire. A day pack is a good idea for all Travelers, closed in footwear, lightweight clothes in neutral colours that can be layered for the cooler morning and evenings but warm days. Add in some sunscreen, insect repellent, sunglasses and a hat and you are almost ready to go. A pair of Binoculars is highly recommended too.

FOOD & WHAT TO EXPECT

All food is prepared and provided as per the set itineraries. All prepared food is Westernised and includes fruit, pancakes, cooked breakfasts, soups, wraps, meat, vegetables and BBQ. Food allergies and requests can also be accommodated.

CLIMATE & BEST TIME TO TRAVEL

DECEMBER – FEBRUARY: Wet Season

Although considered the wet season, it is still a fantastic time to go to Tanzania. Late January – February is ideal for spotting calves being born in the South of the Serengeti. The parks are green and beautiful and generally are still good for viewing wildlife.

MARCH – MAY & NOV: Wet Season

Still the wet season however with the rain, comes new life and Tanzania glows with greenery. There are not as many tourists and though some lodges and companies close down over these off-peak times, it is still possible to travel throughout almost the whole year in Tanzania.

JUNE – OCTOBER: Dry Season

The dry season is when the savannahs are yellow and the long grass waves in the hot wind. June, July and August are fantastic times to spot the Wildebeest migration in the Northern Serengeti, preparing to cross the Mara River.

CURRENCY

The local currency is the Tanzania Shilling, although USD is widely accepted. Whilst most things are included in your trip, we recommend getting USD prior to arriving in Tanzania to cover souvenirs, alcohol, any personal shopping and tipping.

PASSPORTS & VISAS

Visas are required for travel in Tanzania and although these can be arranged on arrival, we strongly advise all clients to obtain their Visa online in advance. E-visas typically take two – three weeks to be issued. Please check online as requirements may differ depending on citizenship. As with all international travel destinations, we recommend you have at least 6 months left on your passport.

It is now time for us to say farewell and for your Safarito come to an end. We trust that a little piece of Africa will always remain with you.

“ Wendy, Jack and myself had an amazing month-long trip of a lifetime to Africa to see some the best sights the world has to offer. Our trip was organised beautifully by Chris and Fiona in Australia and carried out by an awesome group of people on the ground. Our guides on the safari, Marco and Isaac were so knowledgeable of the animals and the parks we visited.. We were still chasing lions and cheetahs half an hour before our plane took from the Serengeti!
- ALAN, WENDY & JACK

“ Our All Around Tanzania safari with our group of 6 was a fantastic experience. We saw a huge amount of animals and birdlife, much of which was quite close up. Marco our driver/guide, looked after us very professionally. Our custom safari included Tarangire NP, Lake Manyara NP, Ngorongoro Crater NP, and an extensive coverage of the Serengeti NP. Our Safari was more than just animals and birds - it included a town tour of Arusha, visits to a Masai village, bushmens camp, orphanage, school and Oldupai Gorge (the birth of mankind).

Stay alert and focused as we continue along on our journey through the Northern Serengeti in search of the herds of the Great Migration. The plan for the next few days will be decided between your Guide and yourselves. We like to fit in with the natural hunting rhythm of the Predators. Heading out for an early morning game drive, returning to Camp for a hot lunch and a siesta or some relax time, before heading back out in the afternoon. The Serengeti is the absolute jewel in Tanzania's crown and will bring new experiences every day. Home to the 'Big 5' – Lion, Leopard, Elephant, Buffalo and Rhino – as well as so much more. The Mara River is close by, so we are in prime location to see a river crossing, the only option for the herds heading to greener grasses. Witnessing the herds is a spectacle itself, a river crossing is the ultimate! We will spend both nights at the same camp, where we will return each evening.

DAY

The Hadzabe people have called Lake Eyasi home for more than 10,000 years and still retain the hunter and gatherer lifestyle. You can enjoy a hands on experience and you hunt with the Tribesman or perhaps test your skills with a bow and arrow. Following this we can also visit the Datoga tribe, who are skilled Farmers and Craftsmen. Watch these skilful blacksmiths at work making spears and beautiful jewellery. Our Alternative Lemosho Route and Full Circuit Umbwe Route try to avoid the crowds, maximising your chance of reaching the summit and improve wildlife visibility. Finding the right route for you is extremely personal and depends upon what you are hoping to achieve and each trek route is incredible in its own unique way. Though it is possible to ascend and descend in just 5 days, all of our climbs have a minimum six day duration in order to give you as much time to acclimatise as possible.

Make sure you prepare. We love Kilimanjaro and absolutely recommend the experience to anyone who wants to try, however we also do not want to leave the impression that a Kilimanjaro climb is easy. WHERE IT ALL BEGAN

In 2010, co-founder Fiona Hall, took up the challenge of climbing Mount Kilimanjaro, with a group of 7 other women. Afterwards she experienced a short safari that left her yearning for more. To say this was a life changing challenge is an understatement. Fiona has owned her own business in the legal industry in Australia for over 30 years and with this business knowledge, and countless visits to Tanzania, a business partnership with Mr Marco Duwe was formed and All Around Tanzania Safaris Pty Ltd was born. Since then, 5 acres of land has been purchased, many trees and flowers planted and now we have a beautiful campsite with Tented Lodges soon to be open. Today The Junction Campsite welcomes many travellers. Fiona's visits and time spent on Safari in Tanzania are now too many to count and it is Fiona & Marco's wish to share the love and passion they have for Tanzania with other travellers, showcasing this incredible country, whilst financially supporting local children in their education at Tumaini Junior and Senior Schools.

▶ TRAVEL WITH PURPOSE

The aim of our company is to contribute to the economic growth and sustainability in Tanzania. We have a wonderful relationship with Shalom Orphanage and Tumaini Schools and have been proud to sponsor up to 10 children, at any one time. Believing that education is the way to best change financial circumstances for the future of children in third world countries, School tuition has been the focus of our sponsorship and is ongoing. Our company policy is to employ local, experienced staff, meaning all our Safari Guides, Drivers and Cooks are Tanzanians. We use locally owned accommodation places that are world class. By employing local people, we are also proud to support sustainable travel initiatives which ensure the game parks remain protected and pristine. All Around Tanzania Safaris Pty Ltd supports schools, orphanages, businesses, people and practices which conserve and enable growth in the local area...because after all, this is the reason why we started!

SHALOM ORPHANAGE & THE SCHOOLS

▶ THE SHALOM ORPHANAGE

Shalom Orphanage is a non-profit organisation founded by Mama Warra Nnko in 2004 with the sole mission to improve lives of orphaned, abandoned and disadvantaged children. Dedicated to show all children unconditional love regardless of religion, tribe or ethnicity. The key objective is to build a generation with a vision and a mission to make a difference in their personal lives for their families and community at large. Mama Warra is a woman of faith who believes she can achieve anything with the help of God and this inspiration is what has made her the visionary for this home for children. She started with 3 children in her own home, then moved to another rented 3 bedroom house where she housed 15 children and now because of her hard work and savings from donations given by travellers and volunteers she was able to build the current orphanage in 2007. In 2020 she now has 95 Children.

▶ THE SCHOOL

In 2004 Modest Bayo and his wife Lightness, set up their very first classroom in Karatu. Soon, their living room was bulging at the seams with underprivileged children hoping to learn. It was then, with no financial help and aided only by other members of the community, Bayo and Lightness began digging trenches, laying foundations, mixing mortar and setting bricks all by hand, to build the schools we see there today. Today, the lounge-based classroom has expanded into Tumaini TX Pre-Primary School, Tumaini Junior School, Tumaini Senior Secondary School. With over 1,100 students (and climbing) across the three campuses is a fantastic achievement by Modest and Lightness Bayo, in collaboration with the Tanzania Education Corp. On the 19th of October 2019, 52 student received their diplomas at the first ever graduation ceremony of the Tumaini Senior Secondary School.

“ It was ABSOLUTELY FANTASTIC! The attention to detail during the planning phase by the AATz team, the creativity & care that went into designing our customised itinerary, the choice of accommodation to fit our customers' needs, their advice and recommendations on timing and activities, the professionalism exhibited by their wonderful tour guides and the high level of customer service throughout were all outstanding.
